

## **First EMHF conference**

**Sep 30 – Oct 01, 2005**  
**Vienna (Austria)**

### **FIRST ANNOUNCEMENT**

In January 2005, organisations with an interest in the improvement of men's health in Europe met in Brussels to formally establish the network of the European Men's Health Forum, and organise of a first network conference to coincide with the 2005 edition of the World Congress on Men's Health in Vienna.

#### **Highlights:**

- Welcome of new members
- Exchange of best practice
- Planning of 2006-2007 joint activities
- Signing of the first European declaration on men's health

All the stakeholders in the development of men's health in Europe will be there:

- Representatives of organisations members of the EMHF network
- Public health authorities, private health agencies, policy makers, partner health advocacy and professional networks and their member organisations
- Individuals with an interest in the development of men's health in their countries

**SAVE THE DATE IN YOUR DIARIES!**

Registration will be FREE. Regular updates and a preliminary programme will be published over the coming weeks.

**For all enquiries or if you wish to receive email updates for this event, please contact us at [office@emhf.org](mailto:office@emhf.org)**

*'The EMHF network is a formal coalition of organisations actively contributing to the improvement of men's health in Europe. Network participants are full members of EMHF. They work together to share best practice, establish a common agenda and, where appropriate, carry out joint actions. The network aims to provide a stronger voice for each of its members and for men's health as a whole. It also aims to facilitate collaboration with other international networks and institutions sharing the same goals.'*

**05 April 2005**
